EDUCATION

Northeastern University

Sep 2024 – May 2026

Master of Science in Software Engineering Systems | GPA: 3.9

Boston, MA

- Coursework: Object Oriented Design, Web Development, Program Structure & Algorithms, Data Management & Database Design, Software Engineering, Generative AI

Guru Gobind Singh Indraprastha University

Jul 2019 – May 2023

Bachelor of Technology, Computer Science | GPA: 3.5/4.0

Delhi, India

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript

System Design & Architecture: Microservices, OOP, SOLID Principles, Design Patterns, Multithreading & Concurrency, DSA

Backend & Frameworks: Spring Boot, Spring Cloud Microservices, Node.js, Express.js, FastAPI, RESTful APIs, Hibernate

Cloud & Infrastructure: AWS (EC2, RDS, S3, VPC, IAM, ALB), Terraform, Packer, Docker

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis

Machine Learning: Supervised Learning, Unsupervised Learning, TensorFlow, Pandas, LangChain

DevOps & Tools: Git, GitHub Actions, CI/CD, Maven, JUnit, Linux, Bash, Jira

Frontend: React.js, JavaScript, HTML, CSS

PROFESSIONAL EXPERIENCE

Graduate Teaching Assistant, CSYE 7230 Software Engineering

Jan 2026 – Present

Northeastern University

Boston, MA

- Conducted technical code reviews on **25+ student projects**, evaluating **software architecture**, **design patterns**, and **SOLID principles** compliance
- Mentored **20+ students** on **design patterns implementation** and **test-driven development**, improving project **test coverage by 80%** and reducing code complexity across submissions
- Analyzed and resolved software issues spanning **backend services**, **database performance**, third-party integrations, and deployment configurations across diverse technology stacks

Software Engineer

Aug 2023 – Jul 2024

Bhardwaj Tech IT Solutions Pvt Ltd

Gurugram, India

- Built and shipped **backend services** for an **LMS platform** serving **1,000+ users** using **Java** and **Spring Boot**, implementing course management, student enrollment, and progress tracking APIs
- Designed and deployed **RESTful APIs** for **payment processing** modules integrating third-party **UPI services**, resolving **15+ production issues** and ensuring secure, reliable transaction handling
- Improved application stability by **25%** through comprehensive **unit testing** with **JUnit**, **database query optimization**, and legacy code refactoring across production services
- Delivered **3+ major releases** to production environments with full **CI/CD pipelines** using **GitHub Actions** and **Maven**, collaborating in **Agile/Scrum** teams across cross-functional projects

Software Engineer Intern

Jun 2022 – Jul 2023

Bhardwaj Tech IT Solutions Pvt Ltd

Gurugram, India

- Developed and maintained **full-stack features** across multiple client projects using **Node.js**, **Express.js**, and **React.js**, handling both frontend and backend responsibilities
- Built **REST APIs** for user authentication, data management, and business logic modules, integrating with **MongoDB** and **MySQL** databases
- Revamped frontend components using **React.js** with **lazy loading** and **code splitting**, improving page load performance by **40%**

PROJECTS

EcoPlate – Food Waste Reduction Platform | *Spring Boot, React, JWT, MySQL, Docker*

[GitHub](#)

- Architected **full-stack platform** with **role-based access control**, **dynamic pricing engine** adjusting food listings based on **real-time weather** and demand, and **interactive maps** for live availability tracking
- Implemented **JWT authentication**, **BCrypt** password hashing, and **Spring Security** with **sub-1-second API response times** for **30+ concurrent users**

Cloud-Native Auto-Scaling Infrastructure | *Terraform, Packer, AWS, GitHub Actions*

[GitHub](#)

- Architected **multi-environment cloud infrastructure** using **Terraform** and **AWS** (VPC, EC2, RDS, ALB), reducing deployment time by **85%** through automated provisioning
- Achieved **99.9% application availability** through fault-tolerant **multi-AZ deployment** with **IAM roles** and **KMS encryption**
